Bargains, selling off at cost, are altractive words to the people and should have due weight in the minds of buyers. At the sign of the red flag an entire stock of merchandise will be run off at cost, and we suggest to our readers desiring goods to call and examine the stock and prices of Mr. II. O. Sligh. Mr. Sligh desires to close out his business on account of his bad health, and for this reason offers bargains to all. His stock consists of a general assortment of articles adapted to the trade of this section. He also desires to collect all claims due to him and asks his customers to call and settle up. See his advertisement elsewhere.

We publish in this issue the proclamation of and fifty dollars for the arrest of Turner Osborne. It bears date the 8th of January, 1880, and on the back is endorsed a statement that the first proclamation must have miscarried. The present copy of it bears date as forwarded the 23d instant. This was a strange. freak of the mails with so important a paper. However we presume the parties who arrested Osborne will be entitled to the reward, as it was issued, signed and scaled before the arrest and their right to the reward can hardly be dependent upon their knowing that it had been offered. We are glad to note the date of the original proclamation, as the delay unaccounted for would have given good grounds for complaint.

#### More Vast Combinations.

The New York Times says that an im-

portant conference was held in the Windsor Hotel on Tuesday evening between Mr. J. N. McCullough, first Vice President of the Pennsylvania Company, which manages the leased lines of the Pennsylvania Railroad Company, and Mr. H. Victor Newcomb, first Vice President of the Louisville and Nashville Railroad Company, at which the proposition was made and discussed of leasing to the Pennsylvania Railroad Company for a long term of years the Louisville and Nushville Railroad and all its old and recently acquired dependencies. Both gentlemen were extremely reticent when questioned on the subject, but it is understeed that the proposition was not unfavorably received, and that further conferences The consequences of such a combination as is here projected will be readily understood by a reference to the details of the Louisville and Nashville coup, whereby 8,500 miles of railroal extending from the freshwater lakes on the North to the Gulfon the South, and from St: Louis to Savannah, were consolidated under one management, and by considering in addition the enormous system of roads at present under the control of the Pennsylvania Railroad Company. These aggregate over 4,000 miles of line exclusive of sidings and second, third and fourth tracks, over 3,000 of them being leased railroads operated by the Pennsylvania Company. It would give to the Pennsylvania Railroad Company a trunk route to which no other in the world offers a comparison, from New York to Philadelphia; thence Westerly via Reading, Harrisburg and Pittsburg to Chicago; thence Southerly via Indianapolis, Louisville, Nashville, Montgomery and Mobile to New Orleans; also from Indianapolis Southwesterly to St Louis; thence Southeasterly via Evansville, Nashville, Chatta noega and Atlanta to Savannah; also from Bowling Green, Ky., to Memphis, with any number of branches topping the territory

A telegram was sent on Tuesday by President Standiford and Vice President Newcomb' of the Louisville and Nashville Company, to President Cole, of the Nash-ville and Chattanooga Company, requesting him to retain the management of that pertion of that new route under the amalgamation. He subsexuently responded to the effect that personal consideration alone yould not be sufficient to induce him to accept, but that if it could be shown that it would be for the interests of all concerned and if he would be allowed to shape the future policy of the management to that end, would offer no objection. Mr. Newcomb said yes terday in this connection that there was no question of the right of the Louisville and Nashville Company to acquire possession of the Georgia Central under the terms of its recent purchase. Representing Col. Cole, he declared that the relations of that gentleman with the Louisville and Nashville managers are entirely friendly, the Colonel being a relative of a leading officer in the latter road, and they propose to protect his interests fully. When he comes on here he will be consulted as to which of the directors it will be most advisable to retire in making up the new board. In regard to the other intentions of the company, Mr. Newcomb said it is proposed to build an Gov. Simpson, offering a reward of one hundred extension to Charleston, and that this will probably be done in the early future.

Consumption Cured. An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. See that your Baking Soda is whitehad Pulke, asshould be ALL SIMILAR SUBSTANCES used for food.

A simple but severe test of the comparative value of different brands of Soda is to dissolve a descret spoonful of each kind with about a pin of water (hot preferred) in clear plasses, stirring until all is theroughly dissolved. The deleterious insoluble matter in the infortor Boda will be shown after settling some twenty minutes or sconer, by the milky appearance of the solution and the quantity of floating flocky matter according to quality.

Be sure and ask for Church & Co.'s Soda and see that their name is on the package and you will get the purcet and whitest made. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost.
